DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 22-30, drawn to an electrochemical cell with an electrolyte carrier comprising a porous fluorinated material with a surface active material on the inside of the carrier pores, and nanoscale ceramic particles in the carrier material.

Group II, claim(s) 31, drawn to an electrochemical storage device with a carrier material for electrolyte where the carrier material is porous and has an inner pore structure which consists essentially of a series of nodes interconnected by fibrils, the nodes generally aligned in parallel, being highly elongated.

Group III, claim(s) 32-33, drawn to an electrochemical energy storage device with a carrier material for electrolyte which forms a seal upon compression between current collector plates during assembly.

Group IV, claim(s) 34, drawn to an electrochemical energy storage device with a carrier material for electrolyte having an inner pore structure in which monodiphosphate of a perfluoropolyether is present.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Only Group I requires the presence of nanoscale ceramics, only Group II requires highly elongated nodes, only Group III requires the formation of a seal, and only Group IV requires the presence of a monodiphosphate of a perfluoropolyether.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
